

PARTH KHERA

B.Tech Computer Science and Engineering
Mob.: +91 9810907221 | Email: parthkheraxa24@gmail.com | Address: Uttam Nagar, New Delhi, India-110059
Linkedin: <https://www.linkedin.com/in/parth-khera-010952331/> | Github: <https://github.com/parthkhera-5> | Portfolio: [PARTH KHERA](#)

PROFILE SUMMARY

- Fourth-year B.Tech Computer Science student with 9+ CGPA and strong skills in Java, Python, MySQL, DSA, and Machine Learning.
- Certified in AI/ML, Generative AI & Agentic AI (Winnovation), AI (SIC), and C, Advanced C++, Java, PHP & MySQL (Spoken Tutorial).
- Hands-on experience in AI/ML, Generative AI, Flask, and real-world projects involving RAG, NLP, and predictive analytics.
- Passionate about AI, Deep Learning, and Data Science to solve real-world problems.

EDUCATION

Bhagwan Parshuram Institute of Technology B.Tech Computer Science and Engineering CGPA: 9.56	2023-2027
Columbia Foundation Senior Secondary School 12 th CBSE Percentage: 91.6%	2023
Columbia Foundation Senior Secondary School 10 th CBSE Percentage: 91.4%	2021

KEY SKILLS

Languages: Java, Python, SQL
AI/ML & Deep Learning: Machine Learning Algorithms (Supervised & Unsupervised), Exploratory Data Analysis, Data Pre Processing, Feature Engineering, Model Evaluation, Natural Language Processing, Neural Networks (ANN, CNN, RNN), Keras, Transformer
Generative AI & Agentic AI: LLMs, Prompt Engineering, RAG, Vector Database, Semantic Search, AI Agents, LangChain, Tool Calling, Memory, Planning, Multi-Agent Systems
Web Development & Libraries: HTML, CSS, JavaScript, Flask, NumPy, Pandas, Matplotlib, Seaborn, Scikit-Learn, NLTK
Core Concepts & Tools: DBMS, Operating System, Data Structures and Algorithms, OOPs, Git, GitHub, Google Colab, Visual Studio

PROJECTS

MedFit AI – RAG-Based Medical Assistant Chatbot | Project Link: [MedFit AI](#)

- Developed a RAG-based medical chatbot using JSON datasets, WHO PDF documents, and GPT OSS 120B for context-aware responses.
- Built a LangChain + ChromaDB pipeline with BAAI/bge-small-en-v1.5 embeddings, 800/150 chunking, and Top-5 semantic retrieval.
- Deployed a Flask web application with integrated BMI and Daily Water Intake calculators.

Cardiovascular Disease Risk Prediction | Project Link: [Cardiovascular Disease Risk Prediction](#)

- Developed a model by comparing 5 ML algorithms, achieving 96.10% accuracy, 96.12% F1-score, and 99.36% ROC-AUC.
- Built the ML pipeline with missing value imputation, normalization, encoding, feature engineering, and feature selection on 3,768 test samples.
- Evaluated performance with 95.50% precision, 96.76% recall, and a confusion matrix of 1,823 TN, 1,798 TP, 61 FP, and 86 FN, supported by EDA and feature importance analysis.

Movie Recommendation System | Project Link: [Movie Recommendation System](#)

- Built a content-based movie recommendation system for 4,803 movies using NLP, TF-IDF (17,318 features), Cosine Similarity, and fuzzy matching for accurate recommendations.
- Developed a pipeline with 24-feature preprocessing, feature engineering, EDA using Pandas, NumPy, Matplotlib, and Seaborn.
- Deployed the solution as a Flask web application for real-time, personalized movie recommendations.

TRAININGS

- 1. Summer Training – GenerativeAI & Agentic AI | Winnovation** (25th June 2026 to 31st July 2026)
 - Completed training in Generative AI and Agentic AI, gaining hands-on experience with LLMs, Prompt Engineering, Transformers, RAG, LangChain, ChromaDB, and Semantic Search, AI Agents including tools, memory, planning and multi agent-workflows.
- 2. Artificial Intelligence | Samsung Innovation Campus** (16th Dec 2025 to 24th Mar 2026)
 - Completed the Samsung Innovation Campus - AI program, gaining hands-on experience in Python, machine learning, data preprocessing, EDA, Scikit-Learn, NLP, Deep Learning, TensorFlow/Keras.
- 3. Summer Training - AI/ML | Winnovation** (24th June 2025 to 31st July 2025)
 - Hands-on training in Python, Machine Learning, NLP, Deep Learning, EDA, Feature Engineering, and Data Visualization using NumPy, Pandas, Scikit-learn, Matplotlib, and Seaborn, with experience in real-world projects.

ACHIEVEMENTS

- 1. Samsung Innovation Campus(SIC) AI Topper 2026 :** Secured the State Topper position in AI, awarded ₹1 Lakh, Samsung Laptop & Trophy, and invited to Samsung HQ and SRI for leadership interactions and technology exposure.
- 2. Smart India Hackathon 2025:** Advanced through two internal rounds from 150+ teams to the Top 50, developing a Panchakarma Management Software to digitize and streamline Ayurvedic therapy management.
